

## UL Certification

Z+F ferrules are certified according to UL. This licence applies to loose piece insulated Z+F ferrules in the range of 0.14 up to 50 mm<sup>2</sup> (AWG 26 – 1) as well as twin ferrules, special ferrules for AWG-conductors, for ferrules with reduced width and ferrules on reels and strips.

Please note that the certification can only be applied if the ferrule is processed with certified tools or Z+F machines, which you can find in the following tooling list.

### Certificate

Our UL certificate number is 20131129-E333905.

### Marking

All Z+F products certified according to UL are marked with the UL Recognized Component Mark (see right).
